

ENGLISH WILL BE NATIONAL TONGUE FOR CANADIANS

SWIFT CURRENT, Sask., April 18. (Sp.)—The provinces of Western Canada are standing back of the dominion government in its determination to make Canada a nation of English-speaking citizens, educated according to Canadian traditions and intelligently loyal to Canadian laws and institutions.

The Saskatchewan school act and the compulsory school attendance act, the province's first great step in this direction, have met with little opposition from any foreign settlers except the Mennonites. This religious sect, which declined to send its sons to war, is fighting the law, which requires its children to attend the public schools where they are taught in English, and is standing out for the right to maintain its old parish schools, where tuition is in German and the principal text-book is the German Bible.

Members of the old Colony Mennonite churches at Goshen, Herbert and in the Swift Current district have joined together to test the validity of the new school laws. The case will be tried in the Saskatchewan courts at an early date. If the decision goes against the Mennonites, they have declared their intention of appealing it to the supreme court of Canada. The provincial government welcomes the action. It will solve a problem which, until definitely settled by the courts, promises much future trouble.

Many Mennonites have been arrested and fined since the passage of the school acts for failure to send their children to the public schools, and many of them have elected to serve jail terms rather than pay fines. The Mennonites formerly evaded the school act by refusing to organize school districts in their colonies. The department of education recently established public schools in all Mennonite colonies, regardless of the wishes of the colonists and the compulsory attendance act is being rigidly enforced. If the law is upheld by the test case, the Mennonites will realize that any further fight will be in vain. Either they will have to send their children to the public schools or spend much of their time in jail or other money in paying fines.

FIRMS SEEK CHARTERS TO ENGAGE IN BUSINESS

Four concerns, seeking to engage in business in Memphis, have applied for charters.

The American Chemical company, capital stock \$100,000, will carry on a drug trade with merchants and will manufacture drugs. The incorporators are C. W. Sawyer, John H. Phillips, B. A. Justice, R. H. Yates and Alfred Sobel.

The Citizens Loan and Trust company seeks a charter to organize a bank with \$50,000 capital stock, the application being signed by J. M. Walker, Oscar H. Cleveland, M. G. Bailey, W. R. Cleveland and Glimmer-Winston.

The Montgomery-Mills Drug company, proposing to engage in a retail drug business, with a capital stock of \$10,000, has for its incorporators J. H. Mills, S. J. Sibley, S. E. Mills, L. K. Montgomery and Alfred Sobel.

The Zeller Shoe company seeks to have its capital stock increased from \$40,000 to \$150,000.

The Premier Amusement company, capital stock \$20,000, giving as its object general welfare, has as its incorporators W. T. Searcy, L. J. Searcy, F. E. Searcy, A. W. Qualls and Wm. H. Foote.

CITY GARDEN AND POULTRY PAY WELL

Many Amateurs Already Have Variety of Fresh Vegetables and Lots of Pleasure.

If there are any doubting Thomases in Memphis about the profits from a back yard garden and poultry yard tended by an amateur, they should immediately get in touch with Mrs. T. F. Kelley, executive secretary of the Feed-Memphis committee, at the little concrete house on Court square, for she can refer them to a number of people right here in Memphis who are now supplying their tables out of this year's garden.

G. C. Bowden, 1502 Kentwood place, assistant manager of the Cumberland Telephone company, has been enjoying fresh home-grown turnips, onions, mustard and radishes out of his own garden for the past 10 days and he never raised a garden before, and the little 20x20 foot plot he is tending was a mat of Bermuda grass growing on a heavy clay soil until this year. His lettuce will be ready for the table in about 10 days and he has peas four inches high and the rest of his garden is coming along finely. In a few days he will plant beans where he has gathered the first row of onions.

Furthermore, Mr. Bowden has cleared \$34.50 from 12 hens which he bought last November.

Eggs Every Day.

Some people say that you can't raise chickens and garden on the same lot, but Mr. Bowden has proved that it can be done and he has the figures to prove it. Last November he bought 12 pure-blood barred rock hens which he put in an unused spot about 10 or 12 feet square adjoining his back lot, and on Christmas day he gathered 15 eggs, and from the time the hens began to lay he says he has never gathered less than seven eggs nor more than 15 per day. His family has had all the fresh eggs they wanted and they haven't bought an egg since that time. He has kept an accurate account of all the eggs he has gathered at the prevailing price of eggs in the stores at the time, and he has also kept an account of what he has paid out for feed, for he had never believed that chickens would pay for in the city, and he wanted to know. According to Mr. Bowden's figures, the eggs he has gathered would have cost him \$40.00 in the stores, and he has spent not quite \$6 for feed, so he figures his 12 hens have netted him about \$34 in about five months. And that is his first experience with poultry.

Mrs. Kelley Responsible.

Mrs. Kelley got me interested in gardening, Mr. Bowden said Thursday afternoon when a News-Scimitar reporter called at his office to inquire about his garden. He didn't mind at all to talk for publication. "Just come out to my place and see my garden," he said. "I'll show you what I can do myself. But if it will help Mrs. Kelley and the Feed-Memphis committee, I'll be glad to do anything I can. However, if you want information about how to raise a garden you had better go to the Feed-Memphis booth at Court square, for I am just an amateur and about all I know about gardening I learned through the committee's work."

When the Feed-Memphis committee opened its headquarters in the Court square booth, Mrs. Kelley ordered a telephone put in. The company never thought that there would ever be a demand for a phone in Court square as we had no line we could connect with. We informed Mrs. Kelley that we could not put a phone in the booth, but she insisted that we must. I called to explain why it could not be done, but she was so persistent about the matter and the work she explained it seemed so important that we improvised a way of making the connection. But before I got the phone installed, Mrs. Kelley had been so interested in gardening that I took a package of free seed and decided to start a garden.

Thorough Preparation.

Along about the middle of January, during the nice dry weather we had then, I began to prepare the ground. I spaded the garden plot about 14 inches deep and then worked it and raked it until all the grass, roots and clods were removed. Then I put on two big wagon loads of stable manure and worked it in thoroughly. Next I got about 50 pounds of commercial fertilizer and raked it in. I got the ground thoroughly pulverized and in fine shape during the nice weather in January. I then sowed the seed. I bought a shape was half the battle, I was told, and I believe that was what got my garden started so nicely.

About the middle of February I began planting it, putting out the onion sets first. The weather has been fine this year for an early garden. The light frosts we have had did not damage a thing. After each rain or shower I watered the plants. I bought a little hand cultivator with which I can go over the entire garden in half an hour. My tomato plants are coming along finely and will be ready to set out in May, and I'll keep my garden going all summer. I have done all the work myself after office hours and I have enjoyed the work immensely.

How do you take care of your chickens, to get such good results, Mr. Bowden was asked.

Followed Directions.

In the first place I got good stock to start with. I had asked the pamphlets on poultry that the Feed-Memphis committee had given me and I have been careful to follow the directions. I don't raise thirty so that they will keep the hens only for the eggs. I keep the hens only for the eggs. I keep the hens only for the eggs. I keep the hens only for the eggs.

The Spring Rains Bring Grippe

This sort of weather brings colds and grippe. If it's just a common cold people say, "there's no danger in that!" But many a fatal sickness begins with a cold—with vitality weakened—the system is ready for the Influenza germs. Begin early to ward off the attack. Purge the system of the toxins (poisons) by taking castor oil, or a vegetable laxative made of Mayapple, leaves of aloe, and jalap, rolled into sugar-coated pills and to be had at all drug stores as Dr. Pierce's Pleasant Pellets.

If the cold starts with a cough, and it persists then some local treatment for this condition should be taken. A well known alternative extract which has been on the market for a great many years, and which has been highly recommended by thousands of users, is Dr. Pierce's Golden Medical Discovery. This tonic compound is composed of an extract of roots and herbs without alcohol, and has a soothing effect upon the mucous membrane, allays the irritation and at the same time works in the proper and reasonable way, at the seat of the trouble—the stagnated or poisoned blood.

Rheumatism

Remarkable Home Cure Given By One Who Had It—He Wants Every Sufferer to Benefit.

Send No Money—Just Your Address.

Years of awful suffering and misery have taught this man, Mark H. Jackson, of Syracuse, New York, how terrible an enemy to human happiness rheumatism is, and have given him sympathy with all unfortunate who are within its grasp. He wants every rheumatic victim to know how he was cured. Read what he says:

"I Had Sharp Pains Like Lightning Flashes Shooting Through My Joints."

In the spring of 1893 I was attacked by Muscular and Inflammatory Rheumatism. I suffered as only those who have it know, for over three years. I tried remedy after remedy, and doctor after doctor, but such relief as I received was only temporary. Finally, I found a remedy that cured me completely, and it has never returned. I have given it to a number who were terribly afflicted and even bedridden with rheumatism, and it effected a cure in every case.

I want every sufferer from any form of rheumatic trouble to try this marvelous healing power. Don't send a cent; simply fill out the coupon below and I will send it free to try. After you have used it and it has proven itself to be that long-looked-for means of curing your Rheumatism, you may send the price of it, one dollar, but, understand, I do not want your money unless you are perfectly satisfied to send it. Isn't that fair? Why suffer any longer when positive relief is thus offered you free? Don't delay. Write today. Mr. Jackson is responsible. Above statement is true.
